

Measles can be dangerous to anyone who is not vaccinated.

Protect yourself and your family.

- Measles spreads very easily to others through coughing and sneezing.
- Getting the measles vaccine is the best way to prevent measles.
- Measles symptoms usually include:
 - high fever (may be more than 104° F)
 - cough
 - runny nose
 - red, watery eyes
 - rash (breaks out 3-5 days after symptoms begin)
